To—All Executive Engineers, the Sanitary Engineer in Mysore and the Chief Electrical Engineer in Mysore.

Instances having come to notice of no record of properties from which Government could look for revenue being kept systematically in the Division Offices, the Comptroller, with the approval of Government in the Public Works Department, has the honor to state that a register in the accompanying form should be opened and kept posted up to date in all the Division Offices and produced for examination at the time of the inspection of the Division Offices.

Notes.

The Register is intended to serve as a systematic record of the miscellaneous properties of Government from which revenue can be looked for from year to year such as fishery, grass, produce of trees, etc., and the revenue realised from these sources. It is of importance that every source of miscellaneous revenue should be detailed in the register.

2. The locality for the purpose of the lease should be clearly defined and it should be same from year to year, to admit of a comparison of the realisations in different years.

3. The entries in the register should be arranged by canals, branches and distributaries the village limits being given in the column provided for the purpose.

4. Increases or decreases of revenue as compared with the figures for previous years must be fully explained in the column of remarks.

5. Details of the lease, agreement number, number of instalments, and due dates of payment, etc., may be noted when necessary in the column "Name of Lessee" and sufficient space must be left between entries in the register, to permit of all realisations of revenue, when payable in instalments being posted in one place.
